The Medina County Fair Tractor Accident

- Tractor purchased and then refurbished-no laws governing purchase
- Driven to county fair and explosion killed 5 people
- Cause determined to be wall thinning from 100 yrs of corrosion
- Settlement for plaintiff

Attorney Referral

I am pleased to recommend Mr. John Sauer for his excellent work and his ability to communicate difficult metallurgical principles in an easy to understand format. Mr. Sauer's familiarity with the case and specific details involving the steam engine accident at the Medina County Fairgrounds was a tremendous asset. I was impressed with Mr. Sauer's ability to analyze data, document his findings, and present his conclusions.
